AMERICAN PHYSICAL SOCIETY (APS) ANNOUNCES
2009 SUBSCRIPTION PRICES

College Park, MD, 20 May 2008 -- APS is pleased to announce that 2009 subscription online only prices will be lowered!

Tier 1 will have a decrease of 8 percent
Tier 2 will have a decrease of 5 percent
Tier 3 will have a decrease of 3 percent
Tier 4 will have an increase of 1 percent
Tier 5 will have an increase of 2 percent

Print increments will have no increase for 2009.

For a complete list of journal prices, please visit <http://librarians.aps.org/Price09.pdf>

Joseph W. Serene, Publisher and Treasurer of APS commented, "We are delighted that improved APS publishing operations have allowed us to reduce subscription prices for over 80% of our subscribers, including all four-year colleges and smaller, less research-focused universities, and to keep increases for the largest, most research-intensive institutions below anticipated inflation, even as our journals continue to grow in size and to maintain exceptional editorial and production standards."

APS is very proud of the quality and value of our nine Journals: *Physical Review Letters*; *Physical Reviews A, B, C, D, E*, Special Topics-Accelerators and Beams, and Special Topics-Physics Education Research; *Reviews of Modern Physics*, and the Physical Review Online Archive (PROLA).

About the APS: The American Physical Society is the world's largest professional body of physicists, representing over 46,000 physicists in academia and industry in the US and internationally. It has offices in Ridge, NY; Washington, DC; and College Park, MD.
